

# “Eye” Can Jar

Cut and drop each line into an empty jar and reach into it every time the mood strikes.  
To make your own “eye can” jar, use an empty tin can and decorate with the eye cutout.

Use the blank slips to create your own “I can” statements!

I can finish my homework
I can finish my chores
I can learn something new
I can clean my room
I can go for a walk
I can spend time with my family
I can talk on the phone with my friends
I can do the dishes
I can read a book
I can play outside
I can paint a picture
I can do something nice for my family
I can ride my bike
I can practice an instrument
I can bake cookies
I can do a craft
I can call my grandparents

Cut out and color the eye to decorate your “eye can.”
