

How to Draw a Nose

1. Draw a light circle and two U shapes on either side for the nostrils.
2. Use the bottom side of the circle to draw the tip of the nose.
3. Add two curved lines for the bridge of the nose. Erase the rest of your circle.
4. Add light shading around the edges, nostrils, and tip.
5. Darken the shading. You can use a real person as a model!
