# Paper Sweater Instructions

Follow the instructions below to create your own ugly sweater! Then, decorate your sweater with markers, crayons, glitter, or anything else you have!

Step 1: Fold either side inward to meet in the middle.

2. Cut along the center of the paper in between the folds. Cut to halfway down the height of the paper.

3. Take the top of one side and fold behind at an angle to form the sleeve. Repeat with the other side. Then, decorate!
