

The Number Zero: Making Sense Out of Nothing!

Zero (0) is a special number. If there are zero things, there are no things at all. For example, if a person has zero pencils, that means they do not have a pencil. If there are zero snowflakes in the sky, there is no snow. If there are zero rain drops in the sky, there is no rain. Color in the number 0 and add a smiley face. The number 0 is an oval shape like a face!

When a box is empty, that means there are **zero** objects inside the box. Color the box in. Can you think of any other empty objects ?

Trace the number 0 and practice drawing it on your own!

Trace the word "zero" and then practice writing it on your own!
