

Sheep Subtraction

Every shearing season, the sheep makes five bags of wool. The sheep gives some to the farmer and keeps some for himself. Figure out how many bags of wool are left for the farmer in each box below. Cut out the bags of wool at the bottom to help yourself see the answer. Write the math expression in the middle.

Sheep gets **4**

$$5 - 4 = \underline{\quad}$$

Farmer gets

Sheep gets **2**

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Farmer gets

Sheep gets **5**

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Farmer gets
