

International Day of Friendship Game

Celebrate today by playing this fun board game with your friends! Color, cut out, and customize the game pieces (people on the left). You can play this game with or without dice. In each box, list an activity, direction, or question, such as "List 3 things I love about my friend," or "What's my friend's favorite food?"

If you answer correctly, you can move up 2 spaces, but if you get the answer wrong, move back 1 space. Using dice, you can determine the number of spaces you can move forward if you answer correctly. If you answer incorrectly, then move backward 2 spaces. Continue playing the game until one person gets to the international friendship circle!
