

# Tin Foil Moon

Step 1: On a piece of printer paper, use a plate or a compass to draw a circle.

Step 2: Crumple a piece of aluminum foil and dip in gray paint. You can use different shades of gray to create lights and shadows (See below)!

Step 3: Cut out the circle and glue onto a piece of black construction paper.

Step 4: Draw stars around the moon using white paint! Then, color and cut some additional shapes from the space below!

Example:
