

# National Tooth Fairy Day

National Tooth Fairy Day on August 22 lets the kid in you relive all the fun of remembering how the Tooth Fairy swapped your front tooth for a few coins or even a dollar, which you discovered under your pillow in the morning.

Ways you can celebrate National Tooth Fairy Day:

1. Prepare for a Tooth Fairy visit - If you know a kid that happens to lose a tooth coincidentally on National Tooth Fairy Day, tell them about the Tooth Fairy legend and help them hide the tooth under their pillow.
2. Watch a movie or read a book about fairy tales - Read them with your child or an important kid in your life.
3. Take care of your teeth - Let National Tooth Fairy Day inspire you to dig out that floss and brush those teeth until your pearly whites sparkle!
