

# Terracotta Warriors

In China, years ago, Emperor Qin Shi Huang ordered the creation of the Terracotta Army to protect his moselum and to provide him protection in the afterlife. There were over 8,000 warriors built.

If you want to build your own army, follow these steps. On the back of this sheet of paper, use a pencil to cover the page in graphite. Then, place the back of the sheet of paper (covered in graphite) on a blank sheet of paper. On the front of this handout (with the Terracotta warriors image), take your pencil and start tracing along the lines of the Terracotta warriors. This will transfer the graphite to the blank sheet of paper. Feel free to repeat these steps to create more Terracotta warriors. Then, color and decorate your army!
