DIY Musical Instrument Making with Recyclables
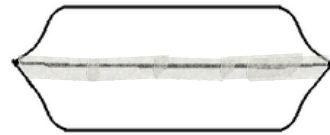

Tambourine (or Pandereta in Spanish)

### Instructions

1) Make sure the edges of your two plates are aligned.

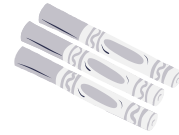

2) Use a hole puncher to make holes around the plate edges.

3) Tape to hold the plates together (or use a staple or glue).

4) Color tape with crayons and paper plates with markers.

5) Fasten 3 paper clips together and join one paper clip through each hole and ribbon. Long tissue paper strips can be added with glue or tape to further decorate.
